

# V. V. Institute of Pharmaceutical Sciences

Seshadri Rao Knowledge Village, Gudlavalleru-521356.

**Name of the Program: “TEACHING METHODS AND CURRICULUM PLANNING”**

**Date of the Program: 25-03-2021**

**Name of the Resource Person : Ms. A. Sai Datri.**

V. V. Institute of Pharmaceutical Sciences organized a program on “TEACHING METHODS AND CURRICULUM PLANNING” on 25-03-2021 by Ms A. Sai Datri, assistant Professor, V, V, Institute of Pharmaceutical Sciences, Gudlavalleru. She explains how to plan curriculum very clearly. Before creating a curriculum plan, teachers decide what information is most crucial for pupils to learn. The educator takes into account both immediate and long-term objectives. The instructor then selects the most effective way to present the material. A plan for evaluating the lesson the students have learnt must also be included by the teacher.

A key component of good teaching that lays the foundation for students' academic careers is curriculum preparation. It entails planning, creating, and executing educational programmes with a great deal of teacher input on the goals, subject matter, and techniques for evaluation.

The Management & Dr. A. Lakshmana Rao Principal of V. V. Institute of pharmaceutical sciences expressed gratitude for sharing her expertise with students.
