## ABOUT THE INSTITUTION

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society .The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1660 Titles and 6150 Volumes, subscription of 11679 E-journals, 12618 E-Books, JGate Plus Networking, 30 Journals and 4 Magazines to meet the needs of the students. Our college research publications include more than 300 articles in reputed journals. The college was selected for CEP Program by PCI, New Delhi.

## ABOUT THE CERTIFICATE PROGRAMME

The training programme would help to promote widespread public confidence in COVID-19 vaccines, and to encourage continued adherence to other mitigation strategies, even after a vaccine becomes available.

### Topics to be Covered

- Vaccine types & mechanisms.
- India's vaccine development Distribution & inequality concerns.
- The Role of the Pharmacist in Overcoming Vaccine Hesitancy.
- Chief vaccines & trial results.

### COURSE SCHEDULE

**Name of the Programme :** Awareness and pharmacy perspectives on Covid-19 vaccination

**Date:** 02-11-2020 to 13-11-2020.

S.No.	Date	Topics to be covered
1.	02-11-20	COVID-19 symptoms and sign and General prevention strategies
2.	03-11-20	Pathophysiology and Disease Transmission
3.	04-11-20	Diagnosis, Prevention and Treatment
4.	05-11-20	Vaccine types & mechanisms
5.	06-11-20	Efficacy & action against variants
6.	07-11-20	Chief vaccines & trial results
7.	09-11-20	Other approved vaccines & vaccines pending authorization
8.	10-11-20	India's vaccine development Distribution & inequality concerns
10.	11-11-20	The Role of the Pharmacist in Overcoming Vaccine Hesitancy
11.	12-11-20	Study Setting, Design, Participants and Data Collection
12.	13-11-20	Statistical Analysis Ethical Considerations

E-Mail ID: satyasree.bandaru@gmail.com

**No. of students attended:** 92

Department of Pharmaceutical Chemistry of VVIPS organized Two week Add on Programme on 'Awareness and pharmacy perspectives on Covid-19 vaccination'. The Programme covered the following objectives and learning outcomes.

#### Objectives:

- Reduction of pressure on the healthcare system.
- Reduction of overall severity of COVID -19 and increased mortality of humans.
- Reopening of society and disease elimination.
- Awareness regarding the potential vaccines need to be administered according to the age group, gender, other health complications.
- Role of pharmacist in hospitals and other healthcare sectors and their need to service for mankind being one of the front line warriors

Pharmaceutical Sciences  
Seshadri Rao Knowledge Village  
GUDLAVALLERU - 521 356

### **Learning outcomes:**

The global effort to develop a COVID-19 vaccine is likely to soon produce one or more authorized vaccines. We examine how different definitions and thresholds of vaccine efficacy, coupled with different levels of implementation effectiveness and background epidemic severity, translate into outcomes including cumulative infections, hospitalizations, and deaths. Using a mathematical simulation of vaccination in an at-risk population, we find that factors related to implementation will contribute more to the success of vaccination programs than the efficacy of a vaccine as determined in clinical trials. The benefits of a vaccine will decline substantially in the event of manufacturing or deployment delays, vaccine hesitancy, or greater epidemic severity. Our findings highlight the need for health officials to move swiftly to scale up production and distribution infrastructure, to promote widespread public confidence in COVID-19 vaccines, and to encourage continued adherence to other mitigation strategies, even after a vaccine becomes available.

Two week Add on Program on Awareness and pharmacy perspectives on Covid-19 vaccination is very much useful to the students. Students were aware about precautions need to be taken regarding the COVID-19 pandemic and pharmacist role in critical situation and effect of vaccines based on individual etc.,

Total 92 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavalleru thanked the Resource person Ms. D. Alekhya, Assistant Professor and participants for making the programme successful.

## ABOUT THE INSTITUTION

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society. The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1660 Titles and 6150 Volumes, subscription of 11679 E-journals, 12618 E-Books, JGate Plus Networking, 30 Journals and 4 Magazines to meet the needs of the students. Our college research publications include more than 300 articles in reputed journals. The college was selected for CEP Program by PCI, New Delhi.

## ABOUT THE CERTIFICATE PROGRAMME

The training Programme would help to provide various information of modeling, may be utilized to search new compounds and their derivatives, convert the scaffold to new compounds with the same goal, virtual screening against novel inhibitors.

### Topics to be Covered

- Steps involved in Pharmacophore modeling.
- Virtual screening strategy.
- Types and Stages of Docking
- Docking softwares.

GUDLAVALLERU - 521 356

## V. V. INSTITUTE OF PHARMACEUTICAL SCIENCES

Seshadri Rao Knowledge Village, Gudlavalluru- 521 356.

### COURSE SCHEDULE

**Name of the Programme :** Pharmacophore modeling and docking techniques

**Date:** 01-02-21 to 12-02-21

S.No.	Date	Topics to be covered
1.	01-02-21	Introduction to Pharmacophore modeling and Docking Techniques
2.	02-02-21	Pharmacophore molecular features
3.	03-02-21	Types of drug design
4.	04-02-21	Steps involved in Pharmacophore modeling
5.	05-02-21	Applications of Pharmacophore concept
6.	06-02-21	Virtual screening strategy
7.	08-02-21	Pharmacophore Model Validation
8.	09-02-21	Types of Docking
9.	10-02-21	Stages of Docking
10.	11-02-21	Importance of Molecular Docking
11.	12-02-21	Docking softwares

### PROGRAMME REPORT

**Name of the Programme :** Pharmacophore Modeling And Docking Techniques

**Duration of Course:** 01-02-21 to 12-02-21

**Resource person details:** Mr. M. Sai Vishnu, Assistant Professor.

V.V. Institute of Pharmaceutical Sciences, Gudlavalleru

Phone No. : 9059058919

E-Mail ID: saivishnu13@gmail.com

**Programme coordinator :** Ms. A. Sai Datri, Assistant Professor.

V.V. Institute of Pharmaceutical Sciences, Gudlavalleru.

Phone No. : 8500542419

E-Mail ID: sai.dhatri\_arige@yahoo.co.in

**No. of students attended:** 90

Training and placement cell Coordinator of VVIPS organized Two week Add on Programme on 'Pharmacophore Modeling And Docking Techniques' . The Programme covered the following objectives and learning outcomes.

#### Objectives:

- To persuade the students to possess a sound knowledge in rational drug design approach.
- To enhance the pharmacological activity profiling of each and every drug.
- To know about multi target drug design and determine the prediction of the binding affinity.
- To ensure virtual screening and the key step in drug discovery process in which students are interested about R&D by the end of study.

PRINCIPAL  
V. V. Institute of  
Pharmaceutical Sciences  
Seshadri Rao Knowledge Village  
GUDLAVALLERU - 521 356

### **Learning outcomes:**

Almost a century ago, the Pharmacophore modeling idea was used as a future image for valuable drug interaction, and in few decades, with the help of various applications of drug discovery packages, CADD techniques have become more-established. Pharmacophore models, with various information of modeling, may be utilized to search new compounds and their derivatives, convert the scaffold to new compounds with the same goal, virtual screening against novel inhibitors, ADME-Tox profile of compounds, and inspect potential off-targets or equitable supplement using different molecular strategies. It is an excellent example of exhibiting a relation between the 3D structure and activity of a molecule. Due to limitations in pharmacophore idea, various treatments are performed to counter them. This versatility makes pharmacophore modeling a blessing for medicinal chemists in CADD to achieve the destiny.

Two week Add on Program on Pharmacophore Modeling And Docking Techniques is very much useful to the students to upgrade themselves regarding the R&D and drug profile and their binding affinity.

Total 90 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavaluru thanked the Resource person Mr.M.Sai Vishnu , Assistant Professor and participants for making the programme successful.

## ABOUT THE INSTITUTION

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society. The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1660 Titles and 6150 Volumes, subscription of 11679 E-journals, 12618 E-Books, JGate Plus Networking, 30 Journals and 4 Magazines to meet the needs of the students. Our college research publications include more than 300 articles in reputed journals. The college was selected for CEP Program by PCI, New Delhi.

## ABOUT THE CERTIFICATE PROGRAMME

The training Programme would help to provide the Knowledge of the chemical and biochemical composition of foods is important to the health, well being and safety of the consumers.

### Topics to be Covered

- Extraction and clean-up for various analytes in food samples.
- Selecting an appropriate Instrumental Technique.
- Hypenated techniques and its Quality control Parameters.

**A Two week Add on Programme  
On  
Estimation of food products by

Department of Pharmaceutical Analysis of VVIPs organized Two week Add on Programme on 'Estimation of food products by Modern Analytical Techniques'. The Programme covered the following objectives and learning outcomes.

#### Objectives:

- To characterize food products in terms of chemical composition, traceability safety, quality, sensory perception and nutritional value.
- To the Development of new products.
- To gain Knowledge of the chemical and biochemical composition of foods is important to the health, well being and safety of the consumers.

*Handwritten signature*

GUDLAVALLERU - 521 356

### Learning outcomes:

At the beginning of the twentieth century scientists began to take more and more advantage of the different opportunities provided by the measured components' physical correlations. With the help of them they developed better and better instrumental analytical methods which they found solution for several problems of the classical analytical methods. Furthermore, highly effective chromatographic and electrophoresis techniques were also used to substitute distillation, extraction or precipitation, applied to divide the mixture of components of food or food raw material samples with unusually complex matrix before the qualitative or quantitative determination. Therefore mentioned new methods, used for the separation and determination of different components, are called instrumental analytical methods. The rapid development of the computer and electronics industry highly contributed to the improvement and spread of the modern instrumental analytical methods.

Two week Add on Program on 'Estimation of food products by Modern Analytical Techniques' is very much useful to the students to ensure the quality of the food and to know the role of quality control and quality assurance departments in the pharmaceutical industries.

Total 15 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavalleru thanked the Resource person, Ms.T.Prasanthi, Associate Professor and participants for making the programme successful.

## ABOUT THE CERTIFICATE PROGRAMME

The training programme would help to provide the necessary information for safely administration of drugs and its contraindications if it is overdosed and necessary storage conditions.

### Topics to be Covered

- Reasons for medication errors and communication.
- How to read a Prescription.
- Safety needed in handling of medicines for pediatrics and geriatrics.
- Reporting and monitoring of ADR .

A Two week Add on Programme  
On  
Safe Handling of Medicines

### COURSE SCHEDULE

**Name of the Programme :** Safe Handling of Medicines

**Date :** 08-03-21 to 20-03-21

S.No.	Date	Topics to be covered
1.	08-03-21	Overview of medication safety
2.	09-03-21	Why medication safety is important
3.	10-03-21	Steps involved in medication safety
4.	11-03-21	Reasons for medication errors and communication
5.	12-03-21	Engage in patient safety
6.	15-03-21	Keep a current medication list
7.	16-03-21	How to read a Prescription
8.	17-03-21	Store and dispose of medications safely
9.	18-03-21	Report ADR if necessary and learn from medication incidents
10.	19-03-21	Legislation acts, Guidance regarding the handling of medicines
11.	20-03-21	Safety needed in handling of medicines for pediatrics and geriatrics

### PROGRAMME REPORT

**Name of the Programme:** Safe Handling of Medicines

**Duration of Course:** 08-03-21 to 20-03-21

**Resource person details :** Dr. K. Srikanth Kumar , Associate Professor.

V.V.Institute of Pharmaceutical Sciences, Gudlavaluru.

Phone No. 9494682732

E-Mail ID:karumanchi002@gmail.com

**Programme coordinator :** Ms. K. Parimala, Assistant Professor.

V.V.Institute of Pharmaceutical Sciences, Gudlavaluru

Phone No.7981402399

E-Mail ID: kolliparimala@gmail.com

**No. of students attended:** 106

Department of Pharmaceutical Chemistry and Analysis of VVIPS organized Two week Add on Programme on 'Safe Handling of Medicines '. The Programme covered the following objectives and learning outcomes.

#### Objectives:

- To decrease adverse events and harmful reactions by focusing safety errors.
- Improve the overall effectiveness of treatment by reducing harm from medicinal products.
- Apply a systematic evaluation of opportunities for medication error to a pharmacy practice model.
- List examples of medication errors commonly seen in practice.

*[Handwritten Signature]*

Pharmaceutical Sciences  
Seshadri Rao Knowledge Village  
GUDLAVALLERU - 521 356

### **Learning outcomes:**

Pharmacists also have a crucial system-level role in planning and leading medication safety programs and improvement initiatives within health care organizations. These initiatives may include developing risk-specific protocols for high-alert medications; identifying and evaluating high-risk processes (e.g., total parenteral nutrition, compounding, pediatric dose preparation) that require special attention, protocols, and training; evaluating medication error data; evaluating and implementing new medication technologies; and fostering robust error reporting processes. Clinical trials are another area in which pharmacist leadership in designing safe protocols is critical, as there are fewer standardized safeguards in place to ensure correct medications and doses are delivered to patients.

Two week Add on Program on Safe Handling of Medicines is very much useful to the students. Students were aware about how to follow instructions while administering drugs.

Total 106 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlalleru thanked the Resource person Dr. K. Srikanth Kumar , Associate Professor and participants for making the programme successful.

## ABOUT THE INSTITUTION

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society. The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1660 Titles and 6150 Volumes, subscription of 11679 E-journals, 12618 E-Books, JGate plus Networking, 30 Journals and 4 Magazines to meet the needs of the students. Our college research publications include more than 300 articles in reputed journals. The college was selected for CEP Program by PCI, New Delhi.

## ABOUT THE CERTIFICATE PROGRAMME

The training Programme would help to know about certain side effects may also including people with other concurrent diseases, and over a long period of time, and activities relating to the detection, assessment, understanding and prevention of adverse effects or any other medicine/vaccine related problem.

### Topics to be Covered

- Post-marketing surveillance in Pharmacovigilance.
- Risk management, minimization, Risk Evaluation.
- Adverse drug reactions reporting, safety strategies to improve Pharmacovigilance.

E-Mail : sravanibpharm2011@gmail.com

**No. of students attended:** 94

Department of Pharmacology and Pharmaceutics of VVIPS organized Two week Add on Programme on Pharmacovigilance. The Programme covered the following objectives and learning outcomes.

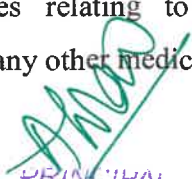

#### Objectives:

- To improve patient care and safety.
- To improve public health and safety.
- To contribute to the assessment of benefit, effectiveness and risk of medicines.
- To promote understanding, education and clinical training.

#### Learning outcomes:

Pharmacovigilance is the science and activities relating to the detection, assessment, understanding and prevention of adverse effects or any other medicine/vaccine related problem.

  
PRINCIPAL  
V. V. Institute of  
Pharmaceutical Sciences  
Seshadri Rao Knowledge Village  
GUDLAVALLERU - 521 356

All medicines and vaccines undergo rigorous testing for safety and efficacy through clinical trials before they are authorized for use. However, the clinical trial process involves studying these products in a relatively small number of selected individuals for a short period of time. Certain side effects may only emerge once these products have been used by a heterogenous population, including people with other concurrent diseases, and over a long period of time.

Two week Add on Programme on **Pharmacovigilance** is very much useful to the students. Students were aware about how to write thesis in more sophisticated manner

Total 94 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavalleru thanked the Resource person Dr. SK. Aminabee, Associate Professor and participants for making the programme successful.

## ABOUT THE INSTITUTION

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society. The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1660 Titles and 6150 Volumes, subscription of 11679 E-journals, 12618 E-Books, JGate Plus Networking, 30 Journals and 4 Magazines to meet the needs of the students. Our college research publications include more than 300 articles in reputed journals. The college was selected for CEP Program by PCI, New Delhi.

## ABOUT THE CERTIFICATE PROGRAMME

The training programme would help to provide an in-depth view of the intellectual property creation that is vital to creating breakthrough technologies, understanding of the strategy deployed for pricing drugs and new technologies as well as the market sizing exercise to identify where future research and development investments should be made.

### Topics to be Covered

- Device discovery and risk analysis.
- Design and development – Verification and validation.
- Classification and Registration of medical devices.
- Approval process of Medical Devices.

### COURSE SCHEDULE

**Name of the Programme :** Pharmaceutical and Medical Devices Innovations

**Date:** 29-03-21 to 09-04-21

S.No.	Date	Topics to be covered
1.	29-03-21	Pharmaceutical Industry- deployment and management
2.	30-03-21	The Medical device industry – deployment and management
3.	31-03-21	Device discovery and risk analysis
4.	01-04-21	Formulation concept and feasibility
5.	02-04-21	Design and development – Verification and validation
6.	03-04-21	Final Validation and product launch preparation
7.	05-04-21	Production, Market introduction and post market follow up
8.	06-04-21	Classification of medical devices (USFDA & CDCSO)
9.	07-04-21	Registration of medical devices
10.	08-04-21	Approval of Medical Devices by Regulations
11.	09-04-21	Patent Filing Procedures

Department of Pharmaceutics of VVIPS organized Two week Add on Program on “Two week Add on Programme on Pharmaceutical and Medical Devices Innovations”. The Programme covered the following objectives and learning outcomes.

#### Objectives:

- Learn about how pharmaceutical companies/industries works and how its marketing takes place.
- Learned about the medical device market, with simple language and their efficiency.
- To learn about new devices which are useful to monitor the health status of individuals.
- Applied knowledge instead of just using a search engine to research a drug with provided

Principal  
V. V. Institute of  
Pharmaceutical Sciences  
Seshadri Rao Knowledge Village  
GUDLALLERU - 521 356

information.

**Learning outcomes:**

This course in the Healthcare Market place specialization gives the learner an in-depth view of the intellectual property creation that is vital to creating breakthrough technologies. Included is an understanding of the strategy deployed for pricing drugs and new technologies as well as the market sizing exercise to identify where future research and development investments should be made.

Two week Add on Program on ‘‘Two week Add on Programme on Pharmaceutical and Medical Devices Innovations ’’ is very much useful to the students regarding usage of medical devices in diagnosis of disease, monitoring health condition, administering of drug dosage forms by various methods.

Total 21 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavalleru thanked the Resource person, Dr. P. Bharghav Bhushan Rao, Associate Professor and participants for making the programme successful.
