REPORT

V. V. Institute Pharmaceutical Sciences conducted a program on "DESIGN EXPERT SOFTWARE" by Dr. G. Usha Kiran, Associate Professor, N.R.I. College of Pharmacy. Design Expert is a statistical software package used for designing and analyzing experiments. You can obtain Design Expert software from the official website of the software vendor, Stat-Ease. Here are the general steps to acquire knowledge on Design Expert software.

Students know, how to install and use and all other aspects like application of Design expert software in formulation development about advantages and steps involved in its usage

Explore product options, on the Stat-Ease website, you'll find information about the various versions and editions of Design Expert available. They may offer different features and pricing options.

The overall program was successful and got good responses from students in understanding the concept of "DESIGN EXPERT SOFTWARE".

V. V. Institute of Pharmaceutical Sciences conducted a program on "U.V. Probe Software". By Dr. B. Mohan Gandhi, Associate Professor, Sri Vasavi Institute of Pharmaceutical Sciences, Tadaepalligudem.

The program deals with software assisted with UV. Visible Spectrophotometers, the probe software is designed to control and collect the data from these Spectrophotometers. Sir clearly explained how to connect and operate the software.

Dr. A. Lakshmana Rao, Principal, V. V. Institute of Pharmaceutical Sciences, expressed gratitude to the resource person for delivery valuable information.

REPORT

V. V. Institute of Pharmaceutical Sciences conducted a program for students on "Experimental Pharmacology" by Dr. I.V. Rama Rao, Associate Professor, NRI College of Pharmacyon Ex Pharm – Series. It is a software used mainly to perform pharmacology experiments/practicals, by the help of this software students can perform pharmacology experiments through "computer assisted learning (CAL) and animal simulation studies without harming the animals.

Experimental pharmacology is study through experimental Design in controlled situations which involves testing of pharmacologically unknown substances and pharmaceutical products in human and animal. It is avirtual lab for doing experiments and know the effect of various drugs on animals with out sacrificing them and the software gives instructions and directions how to proceed for next step during the experiment.

The overall program was successful and got good responses from students in understanding the concept of "EXPERIMENTAL PHARMACOLOGY".

REPORT

V. V. Institute of Pharmaceutical Sciences conducted a program for students on "Usage of Chem Draw Software" by Dr. P. Naga Raju, Professor, Hindu College of Pharmacy.

From this program all the participants clearly understand and learn how the biological items and pathways, as well as chemical structures and reactions, were drawn using the Chem Draw Software. Additionally, view the 3D structures, predict characteristics and spectra, and convert chemical structures to IUPAC names and structure to name functionalities, ¹H and ¹³C NMR predictions.

Dr. A. Lakshmana Rao, Principal, V.V. Institute of Pharmaceutical Sciences, expressed his views regarding the program and we got good response from students.

CIRCULAR

All the students, teaching and non-teaching staff members are informed that V. V. Institute of Pharmaceutical Sciences is conducting a program "STUDY FOR EX PHARMA SERIES" on 06-02-2019. Hence all the students and staff members are invited to take part in this program.

Venue: Computer Lab, V. V. Institute of Pharmaceutical Sciences.

REPORT

V. V. Institute of Pharmaceutical Sciences conducted a program for students on "STUDY FOR EX PHARMA SERIES" by Dr. Sk. Aminabee, Associate Professor, NRI College of Pharmacy on Ex Pharm – Series. It is a software used mainly to perform pharmacology experiments/practicals, by the help of this software students can perform pharmacology experiments through "computer assisted learning (CAL) and animal simulation studies without harming the animals. The modules in the software can be used to demonstrate effect of drugs on different animals' systems. The software is being used and trusted by pharmacologists from many years. The package is user friendly, highly interactive and full of animated sequences which make simulation appear realistic. The current version of Ex-Pharm (Experimental Pharmacology) - Series Software consists of following computer simulated experiments:

Dr. A. Lakshmana Rao, Principal, V.V. Institute of Pharmaceutical Sciences, expressed his views regarding the program and we got good response from students.
