Report

V. V. Institute of Pharmaceutical Sciences Conducted coaching classes for GPAT/ NIPER/ PGECET for III & IV year B. Pharmacy students. The course is designed mainly to train the students who appeared for competitive exams and to give guidance to the students regarding syllabus, examination pattern, negative marking and preparation techniques.

Outcomes of Coaching:

- Coaching helps students strengthen their understanding of the subjects that are part of the GPAT syllabus. They gain in-depth knowledge on related subjects.
- GPAT coaching provides students with effective strategies and techniques to solve exam questions. This includes time management skills, methods to approach different question types, and techniques to handle difficult questions under time constraints.
- Coaching often provide regular mock tests and practice papers. Students can evaluate their performance, identify their weak areas, and work on them to improve their scores.
- With continuous practice and guidance, students often gain confidence in their abilities, which is crucial for tackling competitive exams like GPAT.
- Coaching institutes usually provide valuable insights, shortcuts and exam-specific tips to students. Interacting with these experts can enhance a student's understanding of various topics.
- Students attending coaching classes have the opportunity to interact with peers who share similar goals. This environment fosters healthy competition and allows students to learn from each other.
- GPAT coaching helps students manage their time efficiently, both during the preparation phase and while taking the actual exam.
- With Coaching, regular practice and dedication, students can perform better in the GPAT and NIPER exams. Higher scores increase their chances of securing admission in reputed pharmacy colleges and universities for post graduation.

The students expressed happiness and highlighted the need to coordinate such kinds of initiatives. Dr. A. Lakshmana Rao expressed his appreciation towards the HOD's and faculty members who provided valuable resources and imparted beneficial information to the students.

Report Form on "Career Guidance Program"

V. V. Institute of Pharmaceutical Sciences has successfully conducted the career guidance program entitled "Clinical Data Management" by Dr. A. Narendra Babu, Professor and Principal, Sir C.R. Reddy College of Pharmaceutical Sciences, Eluru, for the future prospects in the field of pharmacy. The topics covered were, what is meant by CDM, its significance, processing, challenges and future trends.

Our welcome note was delivered by Dr. A. Lakshmana Rao (principal) who expressed his gratitude to the faculty members and addressed the students about the importance of the program going to be conducted in the meeting.

In this program students need to know about data collection, data entry, data cleaning, data quality and integrity, data storage etc.

The Career guidance program often includes Clinical Data Management which is a critical aspect of clinical research, in this program students were guided about its importance in quality, integrity and regulatory compliance of the data generated in clinical trials. As the volume and complexity of data continue to grow, it is essential to adapt to emerging technologies and methodologies to meet the evolving needs of the field. By addressing challenges and embracing innovative solutions, CDM professionals contribute to the success and integrity of clinical research, ultimately benefiting patients and advancing medical science. This program provides a comprehensive overview of CDM, emphasizing its significance, processes involved, challenges faced, and the evolving landscape of clinical data management programs.

Over all session on career counseling completed successfully and students participating in a career guidance program felt happy and we have a good response from the students.
