About the College

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society.

The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1680 Titles and 6282 Volumes, subscription of 10,172 E-journals, 2447 E-Books, Knimbus Networking and Magazines to meet the needs of the students. Our college research publications include more than 300 articles in reputed journals.

Courses Offered:

B. Pharmacy : 100 Seats

M. Pharmacy:

Pharmaceutics: 15 Seats

Pharm. Analysis: 15 Seats

About FDP :

The six days Faculty Development Programme may cover various pedagogical techniques and strategies tailored to the field of pharmacy education. This could include active learning methods, case-based teaching, and technology integration in the classroom. Effective communication is crucial in teaching. Encouraging a student-centered approach to teaching involves actively involving students in the learning process. It includes group activities, problem-solving exercises, and encouraging critical thinking. The program may cover the effective integration of technology tools and resources in pharmacy education. This could include e-learning platforms, simulations, and virtual labs

PROGRAM REPORT

Name of the Program:

A Five Days Faculty development program on “Essentials of insights on inspirational teaching for novice undergraduate faculty in pharmacy”

Date: 07/03/2022 to 11/03/2022.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively Five Days Faculty development program “Essentials of insights on inspirational teaching for novice undergraduate faculty in pharmacy”. The goal of learning is to develop the ability to perform professional tasks.

Topics Covered

- Focus Only on the Most Important Skills.
- Motivate Novice Learners.
- Use Well-organized Content.
- Relate Content to Something Known.
- Use A Spiral Approach.

The outcome of the Program:

Feedback was collected from the faculty members. There should be a focus on being explicit about the thought processes, especially when it comes to clinical decision making and applying knowledge to increasingly complex situations. Provide precise and actionable feedback .so, the learner has the opportunity and support to increase their self-awareness about ability level and confidence.

About the College

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society.

The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1680 Titles and 6282 Volumes, subscription of 10,172 E-journals, 2447 E-Books, Knimbus Networking and Magazines to meet the needs of the students. Our college research publications include more than 300 articles in reputed journals.

Courses Offered:

B. Pharmacy : 100 Seats

M. Pharmacy:

Pharmaceutics: 15 Seats

Pharm. Analysis: 15 Seats

About FDP :

The six days Faculty Development Programme on the pharmaceutical industry faces increased sustainability demands. The Environmental, Social, and Governance (ESG) framework is most widely accepted to discuss corporate sustainability, but little is known about the effects of ESG measure implementation on supply chain security. Understanding these effects is especially important in the face of drug shortages. Leveraging a quantitative and a qualitative method based on a grounded theory approach, we aim to investigate the state of ESG maturity of pharmaceutical corporations in Germany and develop a perspective on the effects of ESG measure implementation on supply chain security .

PROGRAM REPORT

Name of the Program:

A Five days faculty development program on “**Integrated Approach to natural resources in drug development & Discovery**”.

Date: 06/12/2021 to 10/12/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively Five days faculty development program on “Integrated Approach to natural resources in drug development & Discovery”. An Integrated Approach reflects on the current changes in this field, giving context to the current shift and using supportive case studies to highlight the challenges and successes faced by researchers in integrating traditional medicinal sources with modern chemical technologies.

Topics Covered

- Screening of biological activity on selective assays.
- Bioassay guided fractionation of the identified plant.
- Isolation and structure elucidation of the active compound.
- Evaluation of chemical do-ability, drug ability, and patentability.
- Go or no go decisions based on safety, biological activity screening

The outcome of the Program:

The open feedback was collected from the faculty members. In order to enhance the delivery of herbal drugs by increasing their therapeutic benefits and reducing their toxicity, the need for innovative drug delivery systems has increased. This review provides information on numerous strategies used to increase the efficacy and safety of phyto medicines, as well as employing novel formulations.

About FDP :

This Six days program discuss about overview of Nanotechnology and Nano-Electronics. Role of Advanced Materials in Nano-Electronic Devices Current Trends and Challenges. Graphene and Carbon Nano tubes 2D Materials (e.g., Transition Metal Dichalcogenides). Organic and Hybrid Materials. Quantum Dots and Nanowires. Scaling Issues and Quantum Effects. Reliability and Manufacturing Challenges. Environmental and Ethical Considerations. Regulatory Landscape. Emerging Trends in Nano-Electronics. Interdisciplinary Research Opportunities.

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on “Advanced materials for a new generation Nano- Electric Device”.

Date: 20/09/2021 to 25/09/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week faculty development program on “Advanced materials for a new generation Nano- Electric Device”. Research interests in nanotechnology, focusing on nanoelectronics, novel nanofabrication methods, reconfigurable memristors, and large-area flexible electronics for emerging neuromorphic computing, artificial intelligence (AI), sensing, and energy applications.

Topics Covered

- Advanced Functional Materials and Devices for Next Generation Nanoelectronics
- Flexible Organic Nanoelectronics with Transient Behaviours
- Stretchable, Flexible, and Bendable Nanoelectronics for Data Storage Applications
- Brain-inspired Artificial Synaptic Devices

The outcome of the Program:

The open feedback was collected from the faculty members. The group is dedicated to modelling, fabricating and characterising novel nanoelectronic and nanophotonic devices using advanced functional nanomaterials and innovative nanofabrication techniques.
