CIRCULAR

All the students and Teaching and Non-Teaching staff members are informed that V.V. Institute of Pharmaceutical Sciences is conducting a Faculty Development program [FDP] on "New Insights To Advances In Drug Discovery For The Treatment Of Resistant Infectious Diseases" From 15-07-2019 to 20-07-2019. Hence all the students and staff members are invited to take part in this Program.

Venue: Room No 111, V.V. Institute of Pharmaceutical Sciences.

One Week Faculty Development Program

on

“New Insights to Advances In Drug Discovery For the Treatment Of Resistance Infectious Diseases”

15th to 20th July, 2019.

About FDP :

This six days program focused on understanding the mechanisms of drug resistance in various infectious diseases. Case studies highlighting the challenges faced in current treatment modalities. Discussions on cutting-edge technologies such as AI, machine learning, and CRISPR in drug discovery. Case studies on successful applications of these technologies. Importance of interdisciplinary collaboration in drug discovery. Panel discussion with experts from various fields. Techniques for identifying and validating drug targets. Success stories and challenges in this phase of drug development.

About the College

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society.

The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1680 Titles and 6282 Volumes, subscription of 10,172 E-journals, 2447 E-Books, Knimbus Networking and Magazines to meet the needs of the students. Our college research publications include more than 300 articles in reputed journals.

Courses Offered:

B. Pharmacy : 100 Seats

M. Pharmacy:

Pharmaceutics: 15 Seats

Pharm. Analysis: 15 Seats

PROGRAM REPORT

Name of the Program:

A One Week Faculty development program on “**New Insights to advances in drug discovery for the treatment of resistance infectious diseases**”

Date: 15/07/2019 to 20/07/2019.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had One Week Faculty development program on “New Insights to advances in drug discovery for the treatment of resistance infectious diseases”. Considering the need of the updated strategies and drug discovery approaches in the area of drug resistance among researchers, in this communication, we consolidated the insights pertaining to new drug development against drug-resistant microbes.

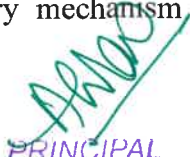

Topics Covered

- To improve awareness and understanding of antimicrobial resistance.
- To strengthen knowledge through surveillance and research.
- To reduce the incidence of infection.
- To optimize the use of antimicrobial agents.

The outcome of the Program:

The open feedback was collected from the faculty members and they signify that the amount of advancement in research to curtail the antimicrobial resistance is quite a satisfactory. The various advancements in drug discovery are gene paradox, transposing mutagenesis, interfering vitamin and fatty acid biosynthesis, use of non-conventional growth media and host model for drug screening and targeting the quorum-sensing virulence pathway. Many researchers emphasized that drug target of resistant microbes which are essential in fatty acid biosynthesis, vitamin biosynthesis and respiratory mechanism in microbes would be more beneficial.

Program Report

Objectives of the Program

V.V. Institute of Pharmaceutical Sciences had successfully organized a five days non teaching development program on **Administrative training program on proper handling of laboratory instruments and equipments** in association with A.A.N.M. & V.V.R.S.R. educational society. The main objective of the program to train the entire Non- teaching faculty to develop critical, quantitative thinking. Develop experimental and data analysis skills. Learn to use scientific apparatus. Learn to estimate statistical errors and recognize systematic errors.

Topics covered

- How to handle the laboratory instruments and equipments.
- Maintenance and cleaning of Laboratory glass ware

Outcome of the program

The outcome of the **Administrative training program on proper handling of laboratory instruments and equipments** plays a crucial role in scientific research and experimentation, enabling researchers to accurately measure, mix, and analyzes samples and substances, as well as maintain a safe and sterile working environment.
