ABOUT THE INSTITUTION

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society .The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1646 Titles and 6112 Volumes, subscription of 200 E-journals, 1620 E-Books, Delnet Networking , 6 Magazines and 22 Journals to meet the needs of the students. Our college research publications include more than 250 articles in reputed journals. The college was selected for CEP Program by PCI, New Delhi.

ABOUT THE CERTIFICATE PROGRAMME

The training programme would help to know about the importance of Epigenetics in prevention over 75% of all chronic physical and mental illnesses to expedite a persons return to normal health.

Topics to be Covered

- Concepts of Epigenetics.
- How does Epigenetics works?
- Empowering feelings and embodiments by Epigenetics.
- Detachment and unification physical exercises.

No. of students attended: 68

Department of Pharmaceutics of VVIPS organized Two week Add on Programme on 'Epigenetics cure for mental and Physical Illness'. The Programme covered the following objectives and learning outcomes.

Objectives:

- To Understand how genetic vulnerabilities interact with an individuals life experiences to establish stable changes at precise genomic losy , which can control the levels of gene expression or inducibility.
- Reduce or alleviate need for psychotropic medications for Depression, ADHD and anxiety
- Help you to avoid recurrence of an illness and guide you to improve the quality of your life and relationships.

PRINCIPAL
V. V. Institute of
Pharmaceutical Sciences
Seshadri Rao Knowledge Village
GUDLAVALLERU - 521 356

Learning outcomes:

Your genes play an important role in your health, but so do your behaviors and environment, such as what you eat and how physically active you are. Epigenetics is the study of how your behaviors and environment can cause changes that affect the way your genes work. Unlike genetic changes, epigenetic changes are reversible and do not change your DNA sequence, but they can change how your body reads a DNA sequence. The “biological memories” associated with these epigenetic changes can affect multiple organ systems and increase the risk not only for poor physical and mental health outcomes but also for impairments in future learning capacity and behavior.

Two week Add on Program on Epigenetics cure for mental and Physical Illness is very much useful to the students. Students were aware you to prevent over 75% of all chronic physical and mental illnesses to expedite a person’s return to health.

Total 68 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavalleru thanked the Resource person, Mr.M. Sai Vishnu Assistant Professor and participants for making the programme successful.

ABOUT THE INSTITUTION

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society. The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1646 Titles and 6112 Volumes, subscription of 200 E-journals, 1620 E-Books, Delnet Networking, 6 Magazines and 22 Journals to meet the needs of the students. Our college research publications include more than 250 articles in reputed journals. The college was selected for CEP Program by PCI, New Delhi.

ABOUT THE CERTIFICATE PROGRAMME

The training programme would help to provide information regarding how to improve the efficiency of the discovery process using computational methods to study complex bioactive interactions of plant chemicals with multiple targets, genes, pathways and diseases.

Topics to be Covered

- Scope & Future of Ethnopharmacology.
- Ethnopharmacology investigations to Phytochemical constituents.
- Ethnopharmacology and its importance in the Pharmaceutical industry.

Phone No: 7997704279

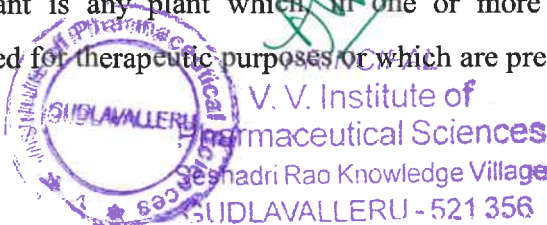

E-Mail ID: dlavanya.smily@gmail.com

No. of students attended: 90

Department of Pharmaceutics and Pharmaceutical Analysis of VVIPS organized Two week Add on Programme on 'Ethnopharmacology'. The Programme covered the following objectives and learning outcomes.

Objectives:

- To review the literature on the relationship among natural products, traditional medicines, and modern medicine.
- To explore the possible concepts and methodologies from natural products and traditional medicines to further develop drug discovery.
- To ensure medicinal plant is any plant which in one or more of its organs, contains substances that can be used for therapeutic purposes or which are precursors for the synthesis of useful drugs.

- To assume that further investigation of such rich sources of chemicals can lead to the future isolation of potential medicines for many diseases.

Learning outcomes:

Ethnopharmacology is defined as “the interdisciplinary scientific exploration of biologically active agents traditionally employed or observed by man”. This definition draws attention to the bio scientific study of indigenous drugs but does not explicitly address the issue of searching for new drugs . This newer branch of study aims to improve the efficiency of the discovery process using computational methods to study complex bioactive interactions of plant chemicals with multiple targets, genes, pathways, and diseases. According to the World Health Organization (WHO), 80% of people around the globe depend on plant-derived medicines for primary health care. Most plant-based medicines are still associated with their original ethnopharmacological uses as well.

Two week Add on Program on Ethnopharmacology is very much useful to the students to they were aware about Ethnopharmacology is re-emerging and growing as an innovative approach to drug discovery.

Total 90 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavalleru thanked the Resource person Mr.Ch. Bhargava gopi, Assistant Professor and participants for making the programme successful.

ABOUT THE INSTITUTION

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society .The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1646 Titles and 6112 Volumes, subscription of 200 E-journals, 1620 E-Books, Delnet Networking , 6 Magazines and 22 Journals to meet the needs of the students. Our college research publications include more than 250 articles in reputed journals. The college was selected for CEP Program by PCI, New Delhi.

ABOUT THE CERTIFICATE PROGRAMME

The training Programme would help to know information regarding how Certified pharmacy technicians help health care teams and their role and efforts to get the right medication to the right people.

Topics to be Covered

- Overview, Roles and Responsibilities of Pharmacy Technician.
- Personal standards and Education Qualification required becoming Pharmacy Technician.
- Training and competency.

Department of Pharmaceutical Chemistry and Pharmaceutical Analysis of VVIPS organized Two week Add on Programme on Guidance about Pharmacy Technician. The Programme covered the following objectives and learning outcomes.

Objectives:

- To secure a challenging position in a reputable organization to expand my learnings, knowledge, and skills.
- Secure a responsible career opportunity to fully utilize my training and skills, while making a significant contribution to the success of the company.
- To know about the process a medication order completely, accurately, and efficiently (interpretation, drug product selection, and computer warnings, packaging, and labeling, filling a prescription in an outpatient setting, and preparing IV medication using aseptic technique).

- To secure the fundamental knowledge of medical terminology and basic rules of vocabulary building.

Learning outcomes:

Highly proficient in accurately filling and labeling prescriptions, maintaining drug inventories and updating pharmacy records. Proven leadership and management skills with great sales man ship. Dedicated to customer satisfaction leading to mutually beneficial outcomes.

- Counting and packaging medications into bottles.
- Creating and applying labels for medications.
- Seeking health care providers' authorization for prescription refills.
- Contacting insurance providers to correct coverage issues.
- Taking inventory of medications available in the pharmacy.
- Running a cash register and ringing up customers' purchases.
- Handling customers' questions and concerns.
- Keeping the pharmacy clean, organized, and well-stocked.
- Maintaining customers' prescription records.
- Assisting the pharmacist with other tasks as needed.
- Assisting with basic medical procedures like administering vaccines, depending on their state

Two week Add on Programme on Guidance about Pharmacy Technician is very much useful to the students to they were aware about knowledge of pharmacy law and apply to the prescription filling process.

Total 94 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavalleru thanked the Resource person, Ms. D. Alekhya, Assistant Professor and participants for making the programme successful.

No. of students attended: 21

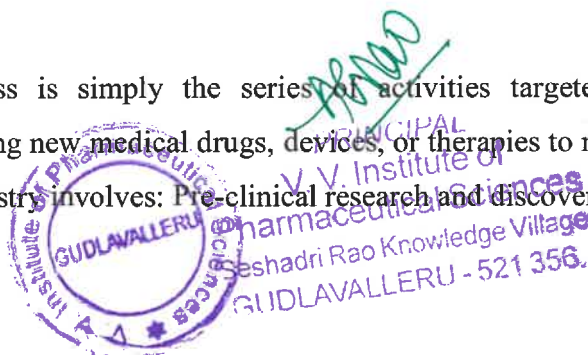

Department of Pharmaceutics of VVIPS organized Two week Add on Programme on 'Pharmaceutical R&D process in health care'. The Programme covered the following objectives and learning outcomes.

Objectives:

- To outline the factors that contributed to evolution of PHC.
- To describe the indicators for evaluating PHC.
- To understand the causative factors and effects on human life.
- Collaborating with the engineering and marketing department on product feasibility.
- Redesigning existing products to enhance functionality or reduce costs.

Learning outcomes:

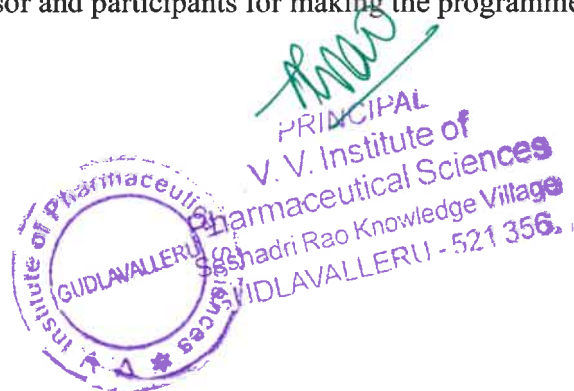

The Pharma R&D process is simply the series of activities targeted to reach the goal of discovering and delivering new medical drugs, devices, or therapies to market. Very basically, R&D in the Pharmacy industry involves: Pre-clinical research and discovery of innovative drugs.

Quality objectives and criteria are the standards that guide your R&D activities and help you evaluate your results. They should be aligned with your customer requirements, business goals, and regulatory compliance.

Two week Add on Program on 'Two week Add on Programme on Pharmaceutical R&D process in health care' is very much useful to the students learnt about how modern drugs are discovered, developed and marketed by Pharma in accordance with FDA regulations.

Total 21 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavalleru thanked the Resource person, Dr.P.Bharghav Bhushan Rao, Associate Professor and participants for making the programme successful.

The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1646 Titles and 6112 Volumes, subscription of 200 E-journals, 1620 E-Books, Delnet Networking , 6 Magazines and 22 Journals to meet the needs of the students. Our college research publications include more than 250 articles in reputed journals. The college was selected for CEP Program by PCI, New Delhi.

ABOUT THE CERTIFICATE PROGRAMME

The training Programme would help to provide knowledge on biology-based science for medical use through research, health monitoring or treatment and also provides a sound basis for a career at the forefront of medical research, as well as other roles both within and outside the lab.

Topics to be Covered

- Analytical study designs.
- Experimental study designs.
- Bio-statistical considerations in designing a research study.
- Ethical issues in conducting a research study.

Department of Pharmaceutical Chemistry of VVIPS organized Two week Add on Programme on 'Basics of Biomedical Research'. The Programme covered the following objectives and learning outcomes.

Objectives:

- The objectives should be SMART—specific, measurable, achievable, realistic, and time-bound.
- To provide comprehensive and detailed understanding of the mechanisms that underlie the development and normal function of humans and other living organisms.
- To understand mechanisms and pathways is essential for identifying potential targets for rational therapeutic interventions, and for disease prevention.

Amoo
PRINCIPAL
V. V. Institute of
Pharmaceutical Sciences
Seshadri Rao Knowledge Village
GUDLAVALLERU - 521 356

Learning outcomes:

Basic biomedical research, which addresses mechanisms that underlie the formation and function of living organisms, ranging from the study of single molecules to complex integrated functions of humans, contributes profoundly to our knowledge of how disease, trauma, or genetic defects alter normal physiological functions. Basic biomedical research is there by gain insights into the pathological and patho physiological mechanisms that cause disease.

Two week Add on Program on Basics of Biomedical Research is very much useful to the students. Students were aware about mechanisms that underlie the development and normal function of humans and other living organisms.

Total 20 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavalleru thanked the Resource person Mr. K. Srikanth Kumar , Associate Professor and participants for making the programme successful.

ABOUT THE INSTITUTION

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society. The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1646 Titles and 6112 Volumes, subscription of 200 E-journals, 1620 E-Books, Delnet Networking, 6 Magazines and 22 Journals to meet the needs of the students. Our college research publications include more than 250 articles in reputed journals. The college was selected for CEP Program by PCI, New Delhi.

ABOUT THE CERTIFICATE PROGRAMME

The training Programme would help to provide sound knowledge on branded drugs and generic drugs and their uses and names of few medications used to treat in certain medical and illhealth conditions, particularly in the case of Pediatrics and Geriatrics.

Topics to be Covered

- Basics on Medical terminology
- Drugs used to treat Blood pressure, diabetes, OTC drugs, Asthma, Allergy, Contraception, Sexual Transmitted Infections, Migraine etc.

PROGRAMME REPORT

Name of the Programme: Medications need to know in Pharmacy

Duration of Course : 02-03-20 to 13-03-20

Resource person details: Ms. K. Parimala, Assistant Professor.

V.V. Institute of Pharmaceutical Sciences, Gudlavalluru

Phone No.:7981402399

E-Mail ID: kolliparimala@gmail.com

Programme coordinator : Ms. A. Sai Datri, Assistant Professor.

V.V.Institute of Pharmaceutical Sciences, Gudlavalluru.

Phone No. : 8500542419

E-Mail ID: sai.dhatri_arige@yahoo.co.in

No. of students attended: 92

Department of Pharmaceutical Analysis of VVIPs organized Two week Add on Programme on 'Medications need to know in Pharmacy'. The Programme covered the following objectives and learning outcomes.

Objectives:

- To learn some basic pharmacology introduction and get sound knowledge of medications.
- To understand when they're used, why they're used, and how they're used.
- To learn medication classes, brand, generic, and conditions they treat.
- To Understand basic conditions, including signs and symptoms, goals, who needs treatment, and when and how to treat different diseases.
- Discover effective ways to learn and remember top drugs.

GUDLAVALLERU - 521 356

Learning outcomes:

Drugs used to treat Blood pressure, diabetes, cholesterol, OTC drugs, Asthma, Allergy, Smoking Cessation, Contraception, Sexual Transmitted Infections, Migraine Headaches, Peptic Ulcer Disease , pregnancy and lactation and their contraindications, dosage etc.

Two week Add on Programme on Medications need to know in Pharmacy is very much useful to the students. Students were aware about Know Top Drugs and their basic name and class to simple uses and dangers.

Total 92 students were participated actively in the training. This programme is very much useful to the students and the feedback was positive. The management and Dr. A. Lakshmana Rao, Principal of VVIPS, Gudlavalleru thanked the Resource person Ms. K. Parimala, Assistant Professor and participants for making the programme successful.
