**6.1.1 The Governance and leadership is visible at various institutional practices, it comprises of decentralization and participation in the institutional governance in accordance with vision and mission of the institution.**

The institution's governance is indicative of strong leadership that is aligned with its vision and goal.

Aiming to significantly contribute in wisdom and humanity for the development of the apprentices to become highly disciplined and globally competent with ethical values, the college works with a clear vision, anticipates becoming a world-class centre to impact the technical knowledge and research in pharmacy, and strives to become a significant contributor in knowledge and humanity. Continue to place a strong emphasis on research and development to establish as a centre of excellence.

#### **Mission:**

To motivate students to pursue international standards in pharmacy education, especially the socially and economically underprivileged students, in the hopes that their education will enable them to become financially independent. Fostering a tough academic environment within the college to prepare students to meet the challenges of a complicated world that is changing quickly. Establishing a secure, orderly college atmosphere that is supportive of study, as well as consistently upholding moral standards to enhance our students' sense of responsibility, social awareness, and commitment to the advancement of democracy, secularism, and peace. Encouraging and motivating the students to achieve high expectations for their coursework and research. Develop student knowledge-enrichment programmes for social advancement. Fostering research and development while moulding students by developing their intrinsic talents will enable them to create entrepreneurship.

A hierarchical administrative structure is in place, with department chairs supervising junior faculty as they handle certain areas of their departments' tasks. The institution's overall administrative management will be under the principal and staff incharges responsibility.

Numerous committees, each with a chairperson and coordinator, monitor and evaluate the system's activities on a qualitative level. To carry out periodic evaluations, in-charges for various criteria and qualitative assessment are in place. The institution's top body, IQAC, is in charge of conducting all quality assessments.
