About the College

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society.

The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1680 Titles and 6282 Volumes, subscription of 10,172 E-journals, 2447 E-Books, Knimbus Networking and Magazines to meet the needs of the students. Our college research publications include more than 300 articles in reputed journals.

Courses Offered:

- B. Pharmacy : 100 Seats
- M. Pharmacy:
Pharmaceutics: 15 Seats
- Pharm. Analysis: 15 Seats

PROGRAM REPORT

Name of the Program:

A One week day faculty development program on “**Research & Innovation procedure for filling patent, IPR, Copy rights**”.

Date: 24/04/2023 to 29/04/2023.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One week day faculty development program on “Research & Innovation procedure for filling patent, IPR, Copy rights”. The main aim of the FDP is provide bedrock of innovation. An invention is a new solution to a technical problem and can be protected through patents. Patents protect the interests of inventors whose technologies are truly groundbreaking and commercially successful, by ensuring that an inventor can control the commercial use of their invention.

Topics Covered

- Patent Information
- How Patents can support inventors
- Importance of Intellectual property rights

The outcome of the Program:

The open feedback was collected from the faculty members and they convey that the program was extremely helpful for covering the topics about the various information about patents and IPR. The objective of copyright law is to protect and promote creativity and originality. This is ensured by granting exclusive rights to creators for their literary, artistic, musical, and other creative works.

About FDP :

The six days Faculty Development Programme on the pharmaceutical industry faces increased sustainability demands. The Environmental, Social, and Governance (ESG) framework is most widely accepted to discuss corporate sustainability, but little is known about the effects of ESG measure implementation on supply chain security. Understanding these effects is especially important in the face of drug shortages. Leveraging a quantitative and a qualitative method based on a grounded theory approach, we aim to investigate the state of ESG maturity of pharmaceutical corporations in Germany and develop a perspective on the effects of ESG measure implementation on supply chain security.

PROGRAM REPORT

Name of the Program:

A One Week Faculty program on “**Integration of sustainable practices in Pharmaceutical industries & Public Health**”.

Date: 14/11/2022 to 19/11/2022.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week Faculty program on “Integration of sustainable practices in Pharmaceutical industries & Public Health” Sustainability in pharma is about more than just adopting environmentally responsible practices. It encompasses the entire product lifecycle, from drug development to disposal, and aims to ensure that medicines are accessible, affordable, and sustainable for all population.

Topics Covered

- Waste minimization
- Investing in energy-efficient technologies and practices is essential for reducing the pharmaceutical industry's carbon footprint.
- Promoting sustainable raw materials and ingredients in pharmaceutical manufacturing is a crucial step toward greater environmental responsibility.
- Green packaging

The outcome of the Program:

The results of our study answer the call for research on the current state of sustainability target-setting and implementation maturity of pharmaceutical MAHs in Germany. In line with this, we developed an ESG target-setting maturity assessment tool, which corporations can leverage in the future to track their progress or understand their position compared to the market they operate in, as well as by research when assessing ESG target-setting maturity. We further give a perspective on the effects of ESG measure implementation on supply chain security and what needs to be ensured to limit potential negative effects going forward. Our findings support what has been previously suggested by

other researchers sustainability measures can make supply chains more secure. However, risk factors have been identified that need to be considered in order to make MAHs more sustainable while limiting potential negative effects on supply chain security. We underline the importance of a collaborative effort between stakeholders, such as corporations, regulators, and consumers, to move toward more progress on ESG topics of MAHs in Germany.

CIRCULAR

All the students and Teaching and Non-Teaching staff members are informed that V.V. Institute of Pharmaceutical Sciences is conducting a Faculty Development program [FDP] on "Insight Of Basic Techniques & Recent Advances in Pharmaceutical Education & Research Application Perspective" From 25-07-2021 to 30-07-2021. Hence all the students and staff members are invited to take part in this program.

Venue: Room No 212, V. V. Institute of Pharmaceutical Sciences.

About FDP :

The six days Faculty Development Programme discuss about the pharmacy profession which has undergone many changes in recent decades. Pharmaceutical education used to be product-oriented but has had to adapt to the evolving pharmacy practice. Complex and widely varying healthcare requirements mean that there are more challenges to come, which need to be reflected in pharmacy education. The introduction of clinical pharmacy practice to the profession had a significant impact on pharmaceutical education, making the profession more patient-oriented or even service-oriented rather than product-oriented as it was throughout history.

About the College

V. V. Institute of Pharmaceutical Sciences was established in the year 2010 as esteemed promotions of A.A.N.M. & V.V.R.S.R. Educational Society.

The College aims to provide Quality Education, Training and Research facilities of high standard in Pharmaceutical Sciences and strives hard to achieve its objectives through sincere, dedicated efforts, discipline and hard work. The college is equipped with sophisticated equipment's in well-established laboratories and the state of the art library with 1680 Titles and 6282 Volumes, subscription of 10,172 E-journals, 2447 E-Books, Knimbus Networking and Magazines to meet the needs of the students. Our college research publications include more than 300 articles in reputed journals.

Courses Offered:

B. Pharmacy : 100 Seats

M. Pharmacy:

Pharmaceutics: 15 Seats

Pharm. Analysis: 15 Seats

**Registration
is free**

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on “**Insights of basic techniques & recent advances in Pharmaceutical education & research application perspective**”.

Date: 25/07/2022 to 30/07/2022.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively One Week faculty development program on “Insights of basic techniques & recent advances in Pharmaceutical education & research application perspective”. The perspective, experiences and insights of educators from various backgrounds, origin and educational levels were sought regarding the role of pharmacy education in providing pharmaceutical research and development workforce.

Topics Covered

- Pharmaceutical Research and Development
- Pharmacists in R&D
- Career choices and expectations by faculties.

The outcome of the Program:

The open feedback was collected from the faculty members. The shifting of pharmacy education from the technical to more clinical aspects did not change the identity of the pharmacist. Initial education of pharmacists still covers the fundamental sciences that give them the proper knowledge and equip them to be competent to be involved in technical and industrial work. Moreover, R&D is not solely lab work. Clinical research is a very crucial phase of the drug journey where the pharmacist can utilize their skills efficiently. Therefore, pharmacists can be competent to work in R&D but not yet proficient or expert.

Program Report

Objectives of the Program

V.V. Institute of Pharmaceutical Sciences had successfully organized a five days non teaching development program on **Administrative training program on communication skills and personality development** in association with A.A.N.M. & V.V.R.S.R. educational society. The main objective of the program to train the entire Non- teaching faculty develop knowledge, skills, and judgment around human communication that facilitate their ability to work collaboratively with others. Understand and practice different techniques of communication.

Topics covered:

- To provide speaking in English impeccably and with utmost enthusiasm.
- To familiarize the different styles of communication.
- To enlighten the seven concepts of communication.
- To understand the nuances of communication.
- To train and make them comprehend various aspects of skills.

Outcome of the program

The outcome of the **Administrative training program on communication skills and personality development**, Effective Communication skills play a crucial role in honing one's personality. Communication helps individuals to express themselves in the most convincing way. Your thoughts, feelings and knowledge should be passed on in the most desirable manner and effective communication skills help you in the same.

Program Report

Objectives of the Program

V.V. Institute of Pharmaceutical Sciences had successfully organized a five days non teaching development program on **Administrative training program on best practices in office administration** in association with A.A.N.M. & V.V.R.S.R. educational society. The main objective of the program is to running and maintaining a organization. The core objective of administrative program is to create a formal structure that facilitates success for a particular business or organization.

Topics covered:

- Creating an organized space can help improve your team efficiency and create a capable working environment.
- Maintaining and keep updated records.
- Schedule out your week.
- Establish routines.
- Eliminate distractions.
- Define roles and responsibilities.

Outcome of the program

The outcome of the **Administrative training program on best practices in office administration** is the process of planning, organizing, supervising, directing and controlling the activities of office in order to achieve the objective of office successfully. It is the part of management which is concerned with the systematic management of office activities.
