Appreciation letter for sponsorship

Dear Sir,

We, on behalf of V. V. Institute of Pharmaceutical Sciences, Gudlavaluru, would like to extend our gratitude to you for the sponsorship of "Association of Pharmaceutical Teachers of India" (APTI) sponsored National Conference on "**Progressive & Innovative Approach to Explore Research in Pharmacy**" in association with APTI AP State Branch held on **11th November 2022**.

Because of your sponsorship, the event was turned a huge success. It hosted a range of scientific sessions with some very enthusiastic displays of posters/e-posters. About 1150 participants across the nation have attended the event. The event could not have been possible without your support.

The souvenir soft copy is attached for your kind reference. We look forward to your continued support in the future.

PROGRAM REPORT

Name of the Program:

A Five Days Faculty development program on "Essentials of insights on inspirational teaching for novice undergraduate faculty in pharmacy"

Date: 07/03/2022 to 11/03/2022.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively Five Days Faculty development program "Essentials of insights on inspirational teaching for novice undergraduate faculty in pharmacy". The goal of learning is to develop the ability to perform professional tasks.

Topics Covered

- Focus Only on the Most Important Skills.
- Motivate Novice Learners.
- Use Well-organized Content.
- Relate Content to Something Known.
- Use A Spiral Approach.

The outcome of the Program:

Feedback was collected from the faculty members and students. There should be a focus on being explicit about the thought processes, especially when it comes to clinical decision making and applying knowledge to increasingly complex situations. Provide precise and actionable feedback .so, the learner has the opportunity and support to increase their self-awareness about ability level and confidence.

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on "Advanced materials for a new generation Nano- Electric Device".

Date: 20/09/2021 to 25/09/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week faculty development program on "Advanced materials for a new generation Nano- Electric Device". Research interests in nanotechnology, focusing on nanoelectronics, novel nanofabrication methods, reconfigurable memristors, and large-area flexible electronics for emerging neuromorphic computing, artificial intelligence (AI), sensing, and energy applications.

Topics Covered

- Advanced Functional Materials and Devices for Next Generation Nanoelectronics
- Flexible Organic Nanoelectronics with Transient Behaviours
- Stretchable, Flexible, and Bendable Nanoelectronics for Data Storage Applications
- Brain-inspired Artificial Synaptic Devices

The outcome of the Program:

The open feedback was collected from the faculty members and students. The group is dedicated to modelling, fabricating and characterising novel nanoelectronic and nanophotonic devices using advanced functional nanomaterials and innovative nanofabrication techniques. The group includes a team leader, post-docs, and PhD and master's students.

PROGRAM REPORT

Name of the Program:

A Five Days Faculty development program on “Essentials of insights on inspirational teaching for novice undergraduate faculty in pharmacy”

Date: 07/03/2022 to 11/03//2022.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively Five Days Faculty development program “Essentials of insights on inspirational teaching for novice undergraduate faculty in pharmacy”. The goal of learning is to develop the ability to perform professional tasks.

Topics Covered

- Focus Only on the Most Important Skills.
- Motivate Novice Learners.
- Use Well-organized Content.
- Relate Content to Something Known.
- Use A Spiral Approach.

The outcome of the Program:

Feedback was collected from the faculty members and students. There should be a focus on being explicit about the thought processes, especially when it comes to clinical decision making and applying knowledge to increasingly complex situations. Provide precise and actionable feedback .so, the learner has the opportunity and support to increase their self-awareness about ability level and confidence.

PROGRAM REPORT

Name of the Program:

A Five days faculty development program on "Integrated Approach to natural resources in drug development & Discovery".

Date: 06/12/2021 to 10/12/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively Five days faculty development program on "Integrated Approach to natural resources in drug development & Discovery". An Integrated Approach reflects on the current changes in this field, giving context to the current shift and using supportive case studies to highlight the challenges and successes faced by researchers in integrating traditional medicinal sources with modern chemical technologies.

Topics Covered

- Screening of biological activity on selective assays.
- Bioassay guided fractionation of the identified plant.
- Isolation and structure elucidation of the active compound.
- Evaluation of chemical do-ability, drug ability, and patentability.
- Go or no go decisions based on safety, biological activity screening

The outcome of the Program:

The open feedback was collected from the faculty members and students. In order to enhance the delivery of herbal drugs by increasing their therapeutic benefits and reducing their toxicity, the need for innovative drug delivery systems has increased. This review provides information on numerous strategies used to increase the efficacy and safety of phyto medicines, as well as employing novel formulations.

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on "Advanced materials for a new generation Nano- Electric Device".

Date: 20/09/2021 to 25/09/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week faculty development program on "Advanced materials for a new generation Nano- Electric Device". Research interests in nanotechnology, focusing on nanoelectronics, novel nanofabrication methods, reconfigurable memristors, and large-area flexible electronics for emerging neuromorphic computing, artificial intelligence (AI), sensing, and energy applications.

Topics Covered

- Advanced Functional Materials and Devices for Next Generation Nanoelectronics
- Flexible Organic Nanoelectronics with Transient Behaviours
- Stretchable, Flexible, and Bendable Nanoelectronics for Data Storage Applications
- Brain-inspired Artificial Synaptic Devices

The outcome of the Program:

The open feedback was collected from the faculty members and students. The group is dedicated to modelling, fabricating and characterising novel nanoelectronic and nanophotonic devices using advanced functional nanomaterials and innovative nanofabrication techniques. The group includes a team leader, post-docs, and PhD and master's students.

PROGRAMME REPORT

Programme Name	A One-day seminar on "Health tech and Entrepreneurship: Blending Pharmacy with Technology Innovations."
Resource Person	Dr. K.S. Nataraj, Professor & Principal, Shri Vishnu College of Pharmacy, Vishnupur, Bhimavaram.
Date of Activity	28-04-2022.
Organized By	V. V. Institute of Pharmaceutical Sciences.
Venue	Room No: 109, V. V. Institute of Pharmaceutical Sciences.

Objective of the Programme: In the Profession of Pharmacy, One-to-One Interactions are Essential to a Successful Practice. Several Evolving Technologies form an Ecosystem in Pharmacy, one flowing into another. The Purpose of This program is to help the participants Understand Evolving technologies and Innovations in Health care Technologies and understand the Entrepreneurial Opportunities in the healthtech field.

Topic Covered:

- ✓ E-Prescribing
- ✓ Automation and Robotics for Sorting, Packing, and Dispensing.
- ✓ Remote Patient Monitoring.
- ✓ Digital Billing Binder, Formularies.
- ✓ Pharmacoeconomics.
- ✓ Scheduling Patient Care Platforms.

PROGRAM REPORT

Name of the Program:

A Five Days Faculty development program on "Essentials of insights on inspirational teaching for novice undergraduate faculty in pharmacy"

Date: 07/03/2022 to 11/03/2022.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively Five Days Faculty development program "Essentials of insights on inspirational teaching for novice undergraduate faculty in pharmacy". The goal of learning is to develop the ability to perform professional tasks.

Topics Covered

- Focus Only on the Most Important Skills.
- Motivate Novice Learners.
- Use Well-organized Content.
- Relate Content to Something Known.
- Use A Spiral Approach.

The outcome of the Program:

Feedback was collected from the faculty members and students. There should be a focus on being explicit about the thought processes, especially when it comes to clinical decision making and applying knowledge to increasingly complex situations. Provide precise and actionable feedback .so, the learner has the opportunity and support to increase their self-awareness about ability level and confidence.

PROGRAM REPORT

Name of the Program:

A Five days faculty development program on "Integrated Approach to natural resources in drug development & Discovery".

Date: 06/12/2021 to 10/12/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively Five days faculty development program on "Integrated Approach to natural resources in drug development & Discovery". An Integrated Approach reflects on the current changes in this field, giving context to the current shift and using supportive case studies to highlight the challenges and successes faced by researchers in integrating traditional medicinal sources with modern chemical technologies.

Topics Covered

- Screening of biological activity on selective assays.
- Bioassay guided fractionation of the identified plant.
- Isolation and structure elucidation of the active compound.
- Evaluation of chemical do-ability, drug ability, and patentability.
- Go or no go decisions based on safety, biological activity screening

The outcome of the Program:

The open feedback was collected from the faculty members and students. In order to enhance the delivery of herbal drugs by increasing their therapeutic benefits and reducing their toxicity, the need for innovative drug delivery systems has increased. This review provides information on numerous strategies used to increase the efficacy and safety of phyto medicines, as well as employing novel formulations.

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on "Advanced materials for a new generation Nano- Electric Device".

Date: 20/09/2021 to 25/09/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week faculty development program on "Advanced materials for a new generation Nano- Electric Device". Research interests in nanotechnology, focusing on nanoelectronics, novel nanofabrication methods, reconfigurable memristors, and large-area flexible electronics for emerging neuromorphic computing, artificial intelligence (AI), sensing, and energy applications.

Topics Covered

- Advanced Functional Materials and Devices for Next Generation Nanoelectronics
- Flexible Organic Nanoelectronics with Transient Behaviours
- Stretchable, Flexible, and Bendable Nanoelectronics for Data Storage Applications
- Brain-inspired Artificial Synaptic Devices

The outcome of the Program:

The open feedback was collected from the faculty members and students. The group is dedicated to modelling, fabricating and characterising novel nanoelectronic and nanophotonic devices using advanced functional nanomaterials and innovative nanofabrication techniques. The group includes a team leader, post-docs, and PhD and master's students.

MEMORANDUM OF UNDERSTANDING (MoU)

BETWEEN

V. V. INSTITUTE OF PHARMACEUTICAL SCIENCES AND SPECTRUM PHARMA RESEARCH SOLUTIONS

This Memorandum of Understanding (hereinafter called as the 'MoU') is entered into on this 25th day of August 2021 by and between.

V. V. INSTITUTE OF PHARMACEUTICAL SCIENCES, the First Party represented herein by its Principal **Dr. A. Lakshmana rao**, And **SPECTRUM PHARMA RESEARCH SOLUTIONS**, The second party and represented herein by its Centre Head **Dr. S.Sridhar**

WHEREAS:

A) First Party is a Higher Educational Institution named: **V. V. INSTITUTE OF PHARMACEUTICAL SCIENCES**,

B) First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.

C) The Parties intent to cooperate and focus their efforts on cooperation within area of Skill Based Training, Education, Placement, Industrial Visit, Expert Lecture.

D) **SPECTRUM PHARMA RESEARCH SOLUTIONS**, - the Second Party is engaged in Clinical Research and Data Science Services.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERETO AGREE AS FOLLOWS:

CLAUSE 1

CO-OPERATION

- 1.1 Both Parties are united by common interests and objectives, and they shall establish co-operation.
- 1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities.
- 1.3 The parties shall co-operate with each other and shall as promptly as is responsibly practical, relevant agreement.

CLAUSE 2

SCOPE OF THE MoU

- 2.1 Industrial Training & Visits: Industry and Institution interaction will provide an insight into the latest developments / requirements of the industries; the Second Party to permit the Faculty and Students of the First Party to visit its group companies and also involve in Industrial Training Programs for the First Party. This will

provide confidence & smooth transition for students work. Also the Second party may register on the AICTE Internship Portal for the benefit of students.

2.2 Guest Lectures: Second Party to extend the necessary support to deliver guest lecturers to the students of the First Party on the technology trends and in house requirements.

2.3 Placement of trained students: second party will actively engage to help the delivery of the training and placement of the students of the first party on the technology trends and in house requirements.

2.4 There is no financial commitment on the part of the **V. V. INSTITUTE PHARMACEUTICAL SCIENCES**, the first party to take up any program mention in MoU. If there is any finance consideration, it will be dealt separately.

2.5 Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required.

CLAUSE 3 VALIDITY

3.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period, the Second Part.

CLAUSE 4 RELATIONSHIP BETWEEN THE PARTIES

International Officer

Introduction

My name is Bogi Fekete, and I work for Edinburgh Napier University as an International Officer, within the International Operations & Student Recruitment department.

Our team of three is based in Edinburgh, Scotland and is responsible for the South Asia region as well as for Middle East and Africa.

Our aim is to promote our university and its courses and studying in Edinburgh and Scotland.

Important part of my job is to travel to the countries of our regions to attend in person education fairs and events and to visit schools and partners. During these visits I often do presentations about our university, meet students, and help them to find the course that best suit their dream career path.

1. Developing research projects jointly and avail funding:

Both the parties agree to undertake research projects/activities through sharing of research ideas, data and academic resources that can lead to joint publications, development of any product or other intended outcomes like Intellectual property rights/ patents/discoveries generated out of the research activities, belonging to both parties. Such collaboration activities will also include joint research conferences, visitations and sabbaticals at each other's premises; subject to mutual consent of both the parties. All such joint research activities will be governed by the terms and conditions lay down by separate written agreement by both organizations.

2. Exchange of academic information, materials and facilities

Both parties agree to exchange academic information, facilities, resources etc. as mutually agreed from time to time.

3. Students Exchange

3.1 Student Exchange Programs:

Both the parties agree to develop programs whereby the students of either organization can have the opportunity to study at the other organization with mutual recognition of the credit hours arising there from. It is desired by both organizations that there will be significant flow of students in exchange as reciprocal. Both parties agree to facilitate internship facilities for exchange students as mutually agreed. Pursuant to the specific agreement for academic exchange, KTPC and VVIP will exchange students according to the terms and conditions laid out by separate written agreement by both organizations.

3.2 Short Courses/ Summer School:

These courses, usually two to four weeks in duration, will normally be held in spring or summer as mutually agreed. The programs will facilitate visits by students and faculty to learn about the industry environment and culture. In addition to various topics on industry operations and culture, the course would include meetings with industry executives, and visits to various industrial establishments. The cost and other terms of such programs will be mutually worked out separately each year.

4. Faculty and Staff Exchange:

Both organizations agree to develop opportunities for faculty to teach courses, conduct seminars and undertake such other activities at each other's campus as mutually agreed. Visiting faculty will be provided with opportunities to observe and share teaching methods and curriculum. KTPC and VVIP will exchange faculty according to the terms and conditions as mutually agreed upon.

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on "Advanced materials for a new generation Nano- Electric Device".

Date: 20/09/2021 to 25/09/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week faculty development program on "Advanced materials for a new generation Nano- Electric Device". Research interests in nanotechnology, focusing on nanoelectronics, novel nanofabrication methods, reconfigurable memristors, and large-area flexible electronics for emerging neuromorphic computing, artificial intelligence (AI), sensing, and energy applications.

Topics Covered

- Advanced Functional Materials and Devices for Next Generation Nanoelectronics
- Flexible Organic Nanoelectronics with Transient Behaviours
- Stretchable, Flexible, and Bendable Nanoelectronics for Data Storage Applications
- Brain-inspired Artificial Synaptic Devices

The outcome of the Program:

The open feedback was collected from the faculty members and students. The group is dedicated to modelling, fabricating and characterising novel nanoelectronic and nanophotonic devices using advanced functional nanomaterials and innovative nanofabrication techniques. The group includes a team leader, post-docs, and PhD and master's students.

PROGRAM REPORT

Name of the Program:

A Five Days Faculty development program on "Essentials of insights on inspirational teaching for novice undergraduate faculty in pharmacy"

Date: 07/03/2022 to 11/03//2022.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively Five Days Faculty development program "Essentials of insights on inspirational teaching for novice undergraduate faculty in pharmacy". The goal of learning is to develop the ability to perform professional tasks.

Topics Covered

- Focus Only on the Most Important Skills.
- Motivate Novice Learners.
- Use Well-organized Content.
- Relate Content to Something Known.
- Use A Spiral Approach.

The outcome of the Program:

Feedback was collected from the faculty members and students. There should be a focus on being explicit about the thought processes, especially when it comes to clinical decision making and applying knowledge to increasingly complex situations. Provide precise and actionable feedback .so, the learner has the opportunity and support to increase their self-awareness about ability level and confidence.

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on "Advanced materials for a new generation Nano- Electric Device".

Date: 20/09/2021 to 25/09/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week faculty development program on "Advanced materials for a new generation Nano- Electric Device". Research interests in nanotechnology, focusing on nanoelectronics, novel nanofabrication methods, reconfigurable memristors, and large-area flexible electronics for emerging neuromorphic computing, artificial intelligence (AI), sensing, and energy applications.

Topics Covered

- Advanced Functional Materials and Devices for Next Generation Nanoelectronics
- Flexible Organic Nanoelectronics with Transient Behaviours
- Stretchable, Flexible, and Bendable Nanoelectronics for Data Storage Applications
- Brain-inspired Artificial Synaptic Devices

The outcome of the Program:

The open feedback was collected from the faculty members and students. The group is dedicated to modelling, fabricating and characterising novel nanoelectronic and nanophotonic devices using advanced functional nanomaterials and innovative nanofabrication techniques. The group includes a team leader, post-docs, and PhD and master's students.

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on “Gendered contours of the Pandemic reinventing public policy and Leadership transformation”.

Date: 01/02/2021 to 06/02/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week faculty development program on “Gendered contours of the Pandemic reinventing public policy and Leadership transformation”. It strived to delve deeper into the stated themes and provide an open platform for the participants to learn and imbibe some of these key issues related to gender and policy implementation during pandemic. The participants had a great opportunity to familiarize with the listed topics from both conceptual as well as empirical perspective. It marked the initiation of participatory knowledge dissemination between the two institutions who jointly ventured to bring out a holistic transformation in higher education.

Topics Covered

- Pandemic and Leadership
- Pandemic and Health Concerns
- Pandemic and Economic Concerns

The outcome of the Program:

The FDP proved a huge success in terms of bringing together a plethora of ideas, interventions and reflections surrounding the Contours of gender in pandemic. An eminent institution as Miranda House joining hands with a regional University for the first time exemplified the transformative capacity of a collaborative approach in education and the role played by institutions in fostering a combined teaching learning process.

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on "A Future of artificial intelligence in health care system an advance data mining tool".

Date: 14/12/2020 to 19/12/2020.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week faculty development program on "A Future of artificial intelligence in health care system an advance data mining tool" Recently AI techniques have sent vast waves across healthcare, even fuelling an active discussion of whether AI doctors will eventually replace human physicians in the future. We believe that human physicians will not be replaced by machines in the foreseeable future, but AI can definitely assist physicians to make better clinical decisions or even replace human judgment in certain functional areas of healthcare (eg, radiology).

Topics Covered

- Motivations of applying AI in healthcare
- Data types that have be analysed by AI systems
- Mechanisms that enable AI systems to generate clinical meaningful results
- Disease types that the AI communities are currently tackling.

The outcome of the Program:

We reviewed the motivation of using AI in healthcare, presented the various healthcare data that AI has analysed and surveyed the major disease types that AI has been deployed. We then discussed in details the two major categories of AI devices: ML and NLP. For ML, we focused on the two most popular classical techniques: SVM and neural network, as well as the modern deep learning technique. We then surveyed the three major categories of AI applications in stroke care.

REPORT

V. V. Institute of Pharmaceutical Sciences conducted a program for students on "Experimental Pharmacology" by Dr. I.V. Rama Rao, Associate Professor, NRI College of Pharmacyon Ex Phärm – Series. It is a software used mainly to perform pharmacology experiments/practicals, by the help of this software students can perform pharmacology experiments through "computer assisted learning (CAL) and animal simulation studies without harming the animals.

Experimental pharmacology is study through experimental Design in controlled situations which involves testing of pharmacologically unknown substances and pharmaceutical products in human and animal. It is avirtual lab for doing experiments and know the effect of various drugs on animals with out sacrificing them and the software gives instructions and directions how to proceed for next step during the experiment.

The overall program was successful and got good responses from students in understanding the concept of "EXPERIMENTAL PHARMACOLOGY".

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on “Gendered contours of the Pandemic reinventing public policy and Leadership transformation”.

Date: 01/02/2021 to 06/02/2021.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week faculty development program on “Gendered contours of the Pandemic reinventing public policy and Leadership transformation”. It strived to delve deeper into the stated themes and provide an open platform for the participants to learn and imbibe some of these key issues related to gender and policy implementation during pandemic. The participants had a great opportunity to familiarize with the listed topics from both conceptual as well as empirical perspective. It marked the initiation of participatory knowledge dissemination between the two institutions who jointly ventured to bring out a holistic transformation in higher education.

Topics Covered

- Pandemic and Leadership
- Pandemic and Health Concerns
- Pandemic and Economic Concerns

The outcome of the Program:

The FDP proved a huge success in terms of bringing together a plethora of ideas, interventions and reflections surrounding the Contours of gender in pandemic. An eminent institution as Miranda House joining hands with a regional University for the first time exemplified the transformative capacity of a collaborative approach in education and the role played by institutions in fostering a combined teaching learning process.

PROGRAM REPORT

Name of the Program:

A One Week faculty development program on "A Future of artificial intelligence in health care system an advance data mining tool".

Date: 14/12/2020 to 19/12/2020.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week faculty development program on "A Future of artificial intelligence in health care system an advance data mining tool" Recently AI techniques have sent vast waves across healthcare, even fuelling an active discussion of whether AI doctors will eventually replace human physicians in the future. We believe that human physicians will not be replaced by machines in the foreseeable future, but AI can definitely assist physicians to make better clinical decisions or even replace human judgment in certain functional areas of healthcare (eg, radiology).

Topics Covered

- Motivations of applying AI in healthcare
- Data types that have be analysed by AI systems
- Mechanisms that enable AI systems to generate clinical meaningful results
- Disease types that the AI communities are currently tackling.

The outcome of the Program:

We reviewed the motivation of using AI in healthcare, presented the various healthcare data that AI has analysed and surveyed the major disease types that AI has been deployed. We then discussed in details the two major categories of AI devices: ML and NLP. For ML, we focused on the two most popular classical techniques: SVM and neural network, as well as the modern deep learning technique. We then surveyed the three major categories of AI applications in stroke care.

Memorandum of Understanding (MoU)

This Memorandum of Understanding (the "MoU") is made and entered into this on 10th day of June 2019, by and between:

V. V. INSTITUTE OF PHARMACEUTICAL SCIENCES, Gudlavaluru, Krishna District represented by Principal, Dr. A .LAKSHMANA RAO

And

VISWANADHA INSTITUTE OF PHARMACEUTICAL SCIENCES, Anandapuram, Visakhapatnam, AP-531173 represented By Principal, Dr. P. UMA DEVI.

1. Purpose and Objectives:

The purpose of this MoU is to establish a framework for cooperation and collaboration between the two pharmacy colleges for the mutual benefit of their students, faculty, and respective institutions. The objectives of this MoU include, but are not limited to:

- a. Promoting academic and research exchanges between the two institutions.
- b. Facilitating the sharing of knowledge, expertise, and resources in the field of pharmacy education.
- c. Exploring joint research projects, conferences, and symposiums.
- d. Encouraging student and faculty exchanges for learning and professional development.
- e. Exploring opportunities for joint publication and research initiatives.
- f. Strengthening the overall quality of Pharmacy education through partnership.

2. Areas of Cooperation:

The Parties agree to collaborate in the following areas:

- a. **Joint Research and Projects:** The Parties may engage in joint research activities and projects, identifying areas of mutual interest and allocating resources accordingly.
- b. **Resource Sharing:** Both colleges may share academic resources, educational materials, and research publications, where appropriate and legally permissible.

3. Terms of Collaboration:

The collaboration under this MoU will be governed by the following terms:

a. Duration: This MoU shall be valid for an initial period of *One year*, commencing from the effective date, and may be extended by mutual written consent.

b. Review and Revision: The Parties will periodically review the progress of their collaboration and may revise the terms of this MoU as needed, subject to mutual agreement.

c. Confidentiality: Any confidential information shared between the Parties during the collaboration shall be handled in accordance with a separate confidentiality agreement, if required.

d. Expenses: Each Party will bear its own expenses incurred during the collaboration, unless otherwise agreed upon in writing.

4. Termination:

Either Party may terminate this MoU by providing written notice to the other Party at least 60 days in advance. Termination will not affect any ongoing projects or exchanges, which shall be completed as per the terms agreed upon.

5. Governing Law and Dispute Resolution:

This MoU shall be governed by and construed in accordance with the laws of Andhra Pradesh, India. Any dispute arising out of or in connection with this MoU shall be resolved amicably through mutual discussions. If an amicable resolution is not possible, the dispute shall be referred to mediation or arbitration as per the laws of Andhra Pradesh, India.

PROGRAM REPORT

Name of the Program:

A One Week Faculty development program on "New Insights to advances in drug discovery for the treatment of resistance infectious diseases"

Date: 15/07/2019 to 20/07/2019.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had One Week Faculty development program on "New Insights to advances in drug discovery for the treatment of resistance infectious diseases". Considering the need of the updated strategies and drug discovery approaches in the area of drug resistance among researchers, in this communication, we consolidated the insights pertaining to new drug development against drug-resistant microbes.

Topics Covered

- To improve awareness and understanding of antimicrobial resistance.
- To strengthen knowledge through surveillance and research.
- To reduce the incidence of infection.
- To optimize the use of antimicrobial agents.

The outcome of the Program:

The open feedback was collected from the faculty members and students they signifies that the amount of advancement in research to curtail the antimicrobial resistance is quite a satisfactory. The various advancements in drug discovery are gene paradox, transposon mutagenesis, interfering vitamin and fatty acid biosynthesis, use of non-conventional growth media and host model for drug screening and targeting the quorum-sensing virulence pathway. Many researchers emphasized that drug target of resistant microbes which are essential in fatty acid biosynthesis, vitamin biosynthesis and respiratory mechanism in microbes would be more beneficial.

PROGRAM REPORT

Name of the Program:

A One Week Faculty development program on "New Insights to advances in drug discovery for the treatment of resistance infectious diseases"

Date: 15/07/2019 to 20/07/2019.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had One Week Faculty development program on "New Insights to advances in drug discovery for the treatment of resistance infectious diseases". Considering the need of the updated strategies and drug discovery approaches in the area of drug resistance among researchers, in this communication, we consolidated the insights pertaining to new drug development against drug-resistant microbes.

Topics Covered

- To improve awareness and understanding of antimicrobial resistance.
- To strengthen knowledge through surveillance and research.
- To reduce the incidence of infection.
- To optimize the use of antimicrobial agents.

The outcome of the Program:

The open feedback was collected from the faculty members and students they signifies that the amount of advancement in research to curtail the antimicrobial resistance is quite a satisfactory. The various advancements in drug discovery are gene paradox, transposon mutagenesis, interfering vitamin and fatty acid biosynthesis, use of non-conventional growth media and host model for drug screening and targeting the quorum-sensing virulence pathway. Many researchers emphasized that drug target of resistant microbes which are essential in fatty acid biosynthesis, vitamin biosynthesis and respiratory mechanism in microbes would be more beneficial.

Krishna Teja Pharmacy College (KTPC) and V. V. Institute of Pharmaceutical Sciences (VVIP) recognize their strengths in research and education in one or more disciplines of science and their mutual interest in engaging themselves in academic cooperation.

Krishna Teja Pharmacy College (KTPC), here after referred to as the **“FIRST PARTY”**. Sri V. V. Institute of Pharmaceutical Sciences (VVIP), hereafter referred as the **“SECOND PARTY”**, in the MOU.

KTPC and VVIP therefore agree to establish a programme for academic cooperation in the areas of mutual interest, and in accordance with terms and conditions set forth in this memorandum of understanding (MOU). This Memorandum Of Understanding (MOU) is effective as of from 10-06-2019 to 10-06-2021.

1. Objectives:

- 1.1. To contribute further to the regional understanding between faculty and staff of KTPC and VVIP for enhancing skills of students/aspirants through internship and vocational training in order to enhance the quality of pharmacy education.
- 1.2. To strengthen collaboration between KTPC and VVIP through academic programs in instruction, research and faculty development among the faculty and students of both parties.

2. Scope:

The Scope of collaboration on academic and research activities in this Memorandum of Understanding includes the following categories:

1. Developing research projects jointly and avail funding.
2. Exchange of academic information, materials and facilities.
3. Students Exchange.
4. Faculty and Staff Exchange.
5. Advertising & Publicity
6. Organizing/ participation in Joint symposia, seminars, conferences, workshops etc.
7. Commencement, renewal, termination and amendment.

Date :

1. Developing research projects jointly and avail funding:

Both the parties agree to undertake research projects/activities through sharing of research ideas, data and academic resources that can lead to joint publications, development of any product or other intended outcomes like Intellectual property rights/ patents/discoveries generated out of the research activities, belonging to both parties. Such collaboration activities will also include joint research conferences, visitations and sabbaticals at each other's premises; subject to mutual consent of both the parties. All such joint research activities will be governed by the terms and conditions lay down by separate written agreement by both organizations.

2. Exchange of academic information, materials and facilities

Both parties agree to exchange academic information, facilities, resources etc. as mutually agreed from time to time.

3. Students Exchange

3.1 Student Exchange Programs:

Both the parties agree to develop programs whereby the students of either organization can have the opportunity to study at the other organization with mutual recognition of the credit hours arising there from. It is desired by both organizations that there will be significant flow of students in exchange as reciprocal. Both parties agree to facilitate internship facilities for exchange students as mutually agreed. Pursuant to the specific agreement for academic exchange, KTPC and VVIP will exchange students according to the terms and conditions laid out by separate written agreement by both organizations.

3.2 Short Courses/ Summer School:

These courses, usually two to four weeks in duration, will normally be held in spring or summer as mutually agreed. The programs will facilitate visits by students and faculty to learn about the industry environment and culture. In addition to various topics on industry operations and culture, the course would include meetings with industry executives, and visits to various industrial establishments. The cost and other terms of such programs will be mutually worked out separately each year.

4. Faculty and Staff Exchange:

Both organizations agree to develop opportunities for faculty to teach courses, conduct seminars and undertake such other activities at each other's campus as mutually agreed. Visiting faculty will be provided with opportunities to observe and share teaching methods and curriculum. KTPC and VVIP will exchange faculty according to the terms and conditions as mutually agreed upon.

PROGRAM REPORT

Name of the Program:

A One Week Faculty development program on "New Insights to advances in drug discovery for the treatment of resistance infectious diseases"

Date: 15/07/2019 to 20/07/2019.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had One Week Faculty development program on "New Insights to advances in drug discovery for the treatment of resistance infectious diseases". Considering the need of the updated strategies and drug discovery approaches in the area of drug resistance among researchers, in this communication, we consolidated the insights pertaining to new drug development against drug-resistant microbes.

Topics Covered

- To improve awareness and understanding of antimicrobial resistance.
- To strengthen knowledge through surveillance and research.
- To reduce the incidence of infection.
- To optimize the use of antimicrobial agents.

The outcome of the Program:

The open feedback was collected from the faculty members and students they signifies that the amount of advancement in research to curtail the antimicrobial resistance is quite a satisfactory. The various advancements in drug discovery are gene paradox, transposon mutagenesis, interfering vitamin and fatty acid biosynthesis, use of non-conventional growth media and host model for drug screening and targeting the quorum-sensing virulence pathway. Many researchers emphasized that drug target of resistant microbes which are essential in fatty acid biosynthesis, vitamin biosynthesis and respiratory mechanism in microbes would be more beneficial.

PROGRAM REPORT

Name of the Program:

A One Week Faculty development program on "Innovation in Pharmaceutical research methodology: techniques and trends".

Date: 11/02/2019 to 16/02/2019.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively One Week Faculty development program on "Innovation in Pharmaceutical research methodology: techniques and trends". Research studies are designed to test the effect of a medication or treatment in a group of volunteers, measure a drug's ability to treat the medical condition, monitor the drug's safety, and possible side effects.

Topics Covered

- Innovative therapies
- Personalized medicine to meet evolving healthcare needs.
- Artificial Intelligence

The outcome of the Program:

The open feedback was collected from the faculty members and students. The group is conveyed that AI has the potential to revolutionize the drug discovery process, offering improved efficiency and accuracy, accelerated drug development, and the capacity for the development of more effective and personalized treatment.

MEMORANDUM OF UNDERSTANDING (MoU)

BETWEEN

V. V. INSTITUTE OF PHARMACEUTICAL SCIENCES AND ADITYA COLLEGE OF PHARMACY

This Memorandum of Understanding (herein after called as the 'MoU') is entered into on this the 1st day of Month **July 2018** by and between.

V. V. INSTITUTE OF PHARMACEUTICAL SCIENCES, the First Party represented herein by its Head of Institution **Dr. A. Lakshmana Rao** and **ADITYA COLLEGE OF PHARMACY**, The second party and represented herein by its Institution head **Dr. K. Ravishankar**.

WHEREAS:

- A) First Party is a Higher Educational Institution named: **V. V. INSTITUTE OF PHARMACEUTICAL SCIENCES**.
- B) First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.
- C) The Parties intent to cooperate and focus their efforts on cooperation within area of Skill Based Training, Education, Placement, Industrial Visit, Expert Lecture.
- D) **ADITYA COLLEGE OF PHARMACY** - The Second Party is engaged in educational research organization.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERE TO AGREE AS FOLLOWS:

CLAUSE 1

CO-OPERATION

- 1.1 Both Parties are united by common interests and objectives, and they shall establish co-operation.

PROGRAM REPORT

Name of the Program:

A One Week Faculty development program on "Revisiting different factors of medicinal chemistry".

Date: 18/03/2019 to 23/03/2019.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively organized One Week Faculty development program "on "Revisiting different factors of medicinal chemistry". Medicinal chemistry plays a fundamental and underlying role in chemical biology, pharmacology, and medicine to discover safe and efficacious drugs. Small molecule medicinal chemistry relies on iterative learning cycles composed of compound design, synthesis, testing, and data analysis to provide new chemical probes and lead compounds for novel and drug able targets.

Topics Covered

- Importance of Medicinal Chemistry
- Significance of various categories of drugs

The outcome of the Program:

Feedback was collected from the faculty members and students, and they expressed that medicinal chemistry is often viewed as a limiting step being traditionally based on discontinuous and compartmentalized cycles of "design-synthesis-test-analysis" that make the process slow and expensive in terms of human and economic resources. Among compartments, organic synthesis is the most time- and resource-consuming stage and often determines the number of compounds that enters into clinical trials.

PROGRAM REPORT

Name of the Program:

A One Week Faculty development program on "Innovation in Pharmaceutical research methodology: techniques and trends".

Date: 11/02/2019 to 16/02/2019.

Objectives of the program:

V.V. Institute of Pharmaceutical sciences had successively One Week Faculty development program on "Innovation in Pharmaceutical research methodology: techniques and trends". Research studies are designed to test the effect of a medication or treatment in a group of volunteers, measure a drug's ability to treat the medical condition, monitor the drug's safety, and possible side effects.

Topics Covered

- Innovative therapies
- Personalized medicine to meet evolving healthcare needs.
- Artificial Intelligence

The outcome of the Program:

The open feedback was collected from the faculty members and students. The group is conveyed that AI has the potential to revolutionize the drug discovery process, offering improved efficiency and accuracy, accelerated drug development, and the capacity for the development of more effective and personalized treatment.
