Event Report

Event Name: Save Girl Child

Date: 22-04-2022.

Venue: Penjendra

The 'Save Girl Child' campaign was organized in village penjendra over a period of one day aiming to spread awareness about gender equality and eliminate female feticide. The village has a skewed child sex ratio which needed urgent attention.

A community outreach program with a street play, announcement of helpline numbers for reporting harassment cases. A counseling center established for expecting mothers providing guidance on health standards. Illegal sex determination discouraged. Discussions with village leaders to implement welfare schemes for the girl child regarding education, safety and health. Rallies by volunteers holding banners and raising slogans to create awareness. The activities led to increased awareness among villagers about child sex ratio injustices and equal gender rights. Local leaders promised stepping up women's security and education opportunities in the village. The enthusiastic participation of villagers indicates a likely improvement in the girl's ratio and their social status going forward.

The 'Save Girl Child' campaign was successful in sensitizing the rural audience about a very important social issue. We hope that consistent efforts in this regard will lead to a positive turnaround enhancing the value for girl child and women empowerment levels
